Good afternoon Mayor Masters,
Welcome to city! I look forward to your leadership and the change I believe you will bring to our great city.

I would just like to share my dissatisfaction in the motion brought forward by Ward 6 Counselor Dan Leblanc that was supported by several other counselors. This has to be the most ridiculous motion at the absolute worst time that I have ever heard of. To risk the funding provided by our Crown Corps to our community at a time when budgets are stretched already is simply unacceptable. In no way does this help reduce our carbon foot print which seems to be the objective of this group.

I am further upset that Mr. LeBlanc has blocked me a constituent of Ward 6 from his Ward 6 Face Book page for sharing my opinion. Is this acceptable for a counselor to pick and choose what constituents he wants to support and here from?

I know you are not in agreement with this proposal and know that you will do everything in your power to stop this from becoming reality.

Sincerely,

Todd Huber
