Re: We Need Canadian Energy

Dear Mayor Masters,

On the same day the Keystone XL pipeline was cancelled (a project with enormous economic importance to our province) 7 of our Regina Councillors made the decision to pile on one of our most important industries by listing them in the same breath as tobacco, and pornography?

How much tobacco and pornography does it take the City of Regina to function each year? This is an absurd comparison and I hope you and your colleagues will make the right decision and vote this down.

Thank you Mayor Masters, Councillor Findura, Bresciana and Shaw for voting against this motion. I hope you can convince your colleagues to do the same.

Sincerely,
