**Subject:** [External email] Withdrawal of motion

I am very sad the motion to ban fossil fuels sponsorship was withdrawn. The city of Regina was on the right side of history for a moment.

I live in Saint John nb. Home to Canada's largest refinery. Our city will in the coming decades be under sea level rise. Where the oil tankers and oil trains unload this land will be under water. Our city has high cancer rates due to the oil industry and asthma too.

In Seth Klein's newest book A Good War he talks about a plan to get off fossil fuels and he also mentions that in a climate emergency it should be illegal for oil and gas companies to advertise much like tobacco is illegal. It endangers lives here and especially in third world countries that haven't been the ones burning all the fossil fuels.

I know you never supported this ban to begin with but maybe someday you'll see you should have.
