I appreciated that you didn't support this. It sounds like a "few more" people aren't too happy with the idea, either.

I am grateful for your representation!

Good morning,

I did not support this. Just so you know I know I have one councillor who is changing his vote and another who has told us he will change his vote.

My belief is until you turn off your heat and ride a bike you have absolutely no room to talk against fossil fuels.
