Re: Today's communications from outside your district

Dear Mayor Masters,

This is a message from OneClickPolitics.com
You've received a communication from a voter outside of your district.
Rather than forward each of them to you, we've compiled them into a summary:

41 users sent the message:
'Extreme Disappointment'...

Sincerely,
One Click Politics
myvoice@oneclickpolitics.com

Subject: [External email] Banning fossil fuel producer-backed sponsorships and advertisements within the City of Regina

Follow Up Flag: Follow up
Flag Status: Completed

Good day Mayor and Regina Councilors,

Premier Moe's comment that the amendment is "absurd" and "hypocritical" is the best response to this proposed amendment. And kudos to the Mayor who doesn't back this absurd amendment. I believe if you polled the citizens of Regina, most will share the same opinion and have more choice words to add. Councilor Hawkins does not in any way represent me or my opinions on what should and should not be allowed and these councilors were elected to represent the people of Regina, not push their own ridiculous agenda of somehow living a life today without fossil fuels. I am not against in the future using less fossil fuels but right now those fossil fuels are what heat and power our homes, they are part of the makeup of many of the clothes we wear, and the phones and computers we use. The roads we drive on, the gasoline that fuels our cars and and in the floors we walk on everyday. I even discovered heart valves are made with petroleum products! I challenge each and every one of the councilors that think we should condemn and shun the companies that extract, use or sell fossil fuel to shut off their power and energy and light candles for warmth and light instead. I challenge them to dress in animal skins instead of store bought clothes and shoes because those contain petroleum products. They also need to scrub their teeth with out a tooth brush, as that is made with petroleum. Then they can donate all their phones, tablets, computers, DVD players to those more deserving as those products all contain petroleum products and should not be used by the people who are condemning them. Next get rid of the vehicles they own, so much is made with petroleum products or using fossil fuels to power the manufacturing facilities. And in their homes get rid of most of the flooring, appliances (especially appliances because they are made with fossil fuels and are powered by fossil fuels). Now the councilors can walk to work. And next time they want sponsorship for their kids football, hockey, skating, etc....just ask elsewhere. How do the councilors think many events happen, how some non profit fundraisers get enough money to help the less fortunate.....its through donations from companies that generate lots of money.....oh right, they hate companies that produce, use or distribute fossil fuels.

Wake up! This is absurd and quite frankly embarrassing to even live in this city with councilors that had the nerve to suggest this amendment. Many jobs in Saskatchewan and in Regina rely on fossil fuels so next the councilors that want this amendment can donate their life savings, sell their homes to pay for the people who would be laid off if this amendment goes through. Sask Power and Sask Energy have head office here....I'm sure Saskatoon would love the chance to become the new provincial capital city because what you propose will undoubtedly crash the precarious growth we are just starting to see come back since Covid.

But congratulations on winning the stupid award for this year, this proposal has Regina as the laughing stock of Canada right now!!

Best Regards,

A concerned and pissed off citizen of Regina who supports all the workers and companies affiliated with fossil fuels

I want to take this opportunity to object in the strongest terms to the recent actions of the Councils blocking advertising by the Oil industry.

I thank you for your stand in support of the Oil industry in this case.

Subject: [External email] The ludicrous 7-4 vote on oil and gas sponsorships

Follow Up Flag: Follow up
Flag Status: Completed

Dear Mayor Masters: I wish to add my voice to those who are outraged by city council's vote to ban oil and gas sponsorships. I also wish to praise you for going against the trendy anti-oil bandwagon that so many gullible people have decided to jump on. The fact that this is happening in the middle of winter makes this vote especially repugnant. What heats the houses of the 7 who voted against oil and gas? Greta Thunberg's anger I suppose.

In good faith.

I've emailed my councillor and told her my thoughts, that the vote on Wednesday must not pass, Please do whatever you need to to stop Leblanc and the others , it's going to be a long term with him in office, I'm sure he will be gone next term .

Thank you
