Hi I was asked to forward the following resident messages that were received here in the Mayor's Office last week although for the first two names were left but no phone numbers were provided. Also please see the two attached emails. Thanks.

*"Hey good morning this 28(1) calling I represent 3 votes in Area 6. We have had difficulty voting in this last election Went to Scott Collegiate weren't able to had to go the east end and it was vacant. As a result there are some candidates that didn't get these votes and we are not very happy. You better think about us First Nations. It is one of those things that indicate to us that you don't care. So give it some thought."*

*"Hello My name is 28(1) it is Thursday Afternoon. First let me say honourable mayor congratulations on being re-elected. I am very happy about that? I just want to put in my 2 cents concerning how the Election went not the results but the actual process of it. Firstly I should mention about the voter cards that were supposed to be mailed. My experience with that is 1 in 6 received it although they say they were mailed out through Canada Post. I personally discussed it with 6 friends and relatives in all different parts of the city and only 1 in 6 received their r card. it is hard come out to vote to when they and where to vote I'm not surprised that small percentage came out Not many are going to pick up the phone like I did to find out the procedure. – I am one I in 6 that came out to vote. As for the actual process is the most cumbersome and complicated voting procedure I have ever experienced in my life not like Federal or the Provincial much simpler At poll 22 I went through 6 steps to get in and out of there. the first is to go to the receptionist where they attempt to find your address then they send you to fill out the long form which I have never done before show more identification and show more id 4th step to where the actually give the long pages to vote where they give you no instructions how to fold it then you go to actually vote then you go over to the lady who tells you how to put it in the machine 10 to 15 minutes during the day without being lined up. Or people just left plenty of room for improvement in this process - they might think it improved but this was the worst and not receiving a voter card."*
