Dear 28(1) :

Re: Access to Information Request #2018-022 – Vibration Analysis Assessments

This is further to your access to information request received by the City on May 2, 2018, quoted as follows:

“All records related to vibration analysis assessments done on homes on Dewdney Avenue 2008-2018 - including 6000 block to end of 7000 block”

In an email on June 7, 2018 you revised your request to:

“Vibration analysis results for home and roads from 6000 to end of 7000 block Dewdney Avenue for the years 2008, 2011, 2012, and 2015”

In separate emails on July 31, 2018, after the City provided records, you requested:

“I’m looking for the complete report/analysis of these readings done on properties. I was told by an investigative engineering firm that these Range of Vibration Intensities are simply part of a report. I am looking for the report from the testing done Sept. 17 2012.”

“Also, I’m looking for the results from 5320 Dewdney Ave and the testing that was done, the full report.”

Your request for the results from 5320 Dewdney Avenue is outside the scope of your original request; however, we have attached to the email the only results we have for that address.

The City does not have the report you have referred to.
