Are you kidding me,PARKING ENFORCEMENT AMBASSADORS..... City council has now become the laughing stock of the neighborhood, every one I talk to can not believe what City council is doing. Are there not more important things that need fixing. If you work down town maybe take a bus, I bet its a lot cheaper then getting parking tickets. If all you do is shop, then pay the price if you shop to long and get a ticket.
Just an observation.

Thank you so much for the new Parking Ambassadors! My small business attempted to make a delivery to another new small business today. We went inside for 2 minutes to find out where deliveries are to be made, only to find out there is no delivery area. We went outside and a top notch Parking Officer had already issued us a \$60 ticket for illegally parking. He was so fast, he couldnt even cancel the ticket. What a pro!

Fortunately, his sidekick Parking Ambassador was there to educate us. He told us to drive up onto the curbed sidewalk and park on another business' property. I told him that was ridiculous. Then he said we should make our deliveries in the alley. After I told him there is no alley for this business (which anyone with 2 eyes could plainly see), he pointed to a loading zone on the other side of the street at the end of the block. I told him he was out of his mind if he thought this was a reasonable solution for regular deliveries to this new business from various companies.

After further questioning the Parking Ambassador about parking bylaws, he claimed he did know the bylaws.

I recommended to the Parking Ambassador to permanently post a Parking Officer outside of this new business, as it will be a goldmine to regularly ticket small businesses just trying to do their job. It should help pay for the new stadium!

Caller was just downtown and she parked and the meter was not expired yet - Caller stated that a Ambassador for Parking walked up to the car. Caller stated that this person was a wonderful Ambassador and explained everything to her about not getting ticket stated that next time she should park closure to the meter.

She thinks this is a wonderful thing that the City is doing this to educate the people on the way people are parking. Caller stated that her daughter is taking driver training and she is going to take home the pamphlet and let the daughter read this.

She also mentioned she is going to be posting the interaction with the Parking Ambassador on her facebook, to let all her friends know about this program.

She mentioned that the Parking Ambassador is a bigger guy.

Subject: Suggestion

Hi,
Since the city made the effort to deploy "Parking ambassadors" to clarify the rules of parking, I'm writing to submit a suggestion on downtown parking.

I recognize that the 2-hour limit was thought to provide potential customers of downtown businesses the opportunity to park while doing their business.

In actual fact, people that use the 2-hour downtown parking spots are mostly people who work downtown and go out of their office every 2 hours to move spots. This is a known fact to everybody.
Having established this, one can see that the 2-hour parking rule does not help.

I suggest that during spring and summer (May to October), the 2-hour max rule would still be valid, as potential customers would park somewhere downtown and walk a couple of blocks to do their business.
I winter (November to April), it is not the case. For those who can justify working downtown, rather than make them go out in the cold every two hours to move their cars-which serves no purpose- I suggest creating a permit (at a price) allowing these employees to park from 8h to 17h in such a spot.

This would generate revenue without spending one extra dime while avoiding downtown workers moving their cars unnecessarily for the sake of a rule that doesn't solve the parking problem.

Thank you for your consideration,

Yours sincerely,

Sorry for the delayed response [28\(1\)](#). Ambassadors are with the Ambassador Program, which is separate from enforcement. They meet with the public and provide information on parking regulations, but do not perform enforcement duties. The downtown area has designated Parking Enforcement Personnel to provide enforcement for such violations.

I am requesting a review of this ticket because:

I am on the understanding that the city is foregoing parking tickets to emphasize an educational aspect to ticketing. (In leader Post)

The space seems also to be extra long. But two cars fit well in the space with no problem.

This is somewhat petty.

I certify that the foregoing is factual and I am prepared to appear in municipal court to state the circumstances under oath.

Hey Erin,

We've just received this on Facebook. Could you please forward to your parking peeps and let me know what you'd like me to respond with?

Bit of a complaint/tip for your new "parking ambassadors"...When someone is doing yoga outside at lunchtime (or any other time), it is not polite or friendly to come up and interrupt them so you can say you used to be able to do such and such. I was in a balancing posture on one leg and your parking ambassador threw me off balance, I could have hurt myself, he also distracted me from a practice I dearly love, but only have a half an hour to do on work days. I am not outside practicing so people can come chat with me, I am outside to get some fresh air and exercise, my office has no exercise room. Please be respectful. I mean, jeez, the general public that walk by have never interrupted me, why on earth would your employee think it was a good idea?

Sorry for the delayed response as I was on an EDO. Ambassadors are with the Ambassador Program, which is separate from enforcement. They meet with the public and provide information on parking regulations, but do not perform enforcement duties. The downtown area has designated Parking Enforcement Personnel to provide enforcement for such violations.

She's responded:

Thanks, however you have sidestepped my question entirely. How can the City empower it's employees to be helpful? There was a real live person right there and he didn't have the power to help me.

Hey Kels,
This was on FB, correct?
I think our answer is something like this:

16(1)(a)(b)

I believe I spoke with this lady. We advised that we put the information on the Metercheck. Our Servicepersons will attend and advise if the meter was operational, was faulty and fixed. If it was faulty, they can get a refund. I advised unfortunately we do not have the technology which would notify us when meters are down and it is currently not in the budget. She said she just wanted us to know.

Hey Erin,

We just got this public post from a resident. Could you please let me know what you'd like to respond with?

I wanted to go to Ys Moms at the YMCA today. I took the afternoon off, packed up my infant twins and drove downtown. I parked at a two hour meter, put in a toonie and 15 minutes and an out of order message appeared. There was a meter ambassador across the street so I ran over to see if he could help (he couldn't), but advised me to move to avoid a ticket and gave me the number for parking. I didn't have an other toonie so I couldn't move. I called but nobody could help me beyond telling me to move and that I could get my toonie back in 5-7 days and only if I come down to City Hall to get it! What a waste of time, both yours and mine! I paid for a service and you failed to deliver. This is the best that you can do for me? Why can't you empower your employees to actually help tax payers when they try to use your services?
