---

Further to our meeting of July 21st, between IOL, City of Regina and Saskatchewan Environment, we agreed to the following course of action (next steps) and corresponding timeline:

15(1)(b), 14(1)(d), 16(1)(a)

As it is already mid-October (seems as if we just met a few weeks ago !!), I thought I'd check on progress made in regards to above steps before we arrange for any further discussions.

Please advise.  
Thank you
