To the Regina, Assinibocia, 5th Nov 1894

Mayor and Council
of the Town of Regina

Gentlemen I am requested by the Brigade that we have now held six practices as follows May 4th, June 1st, July 6th, Aug 3rd, Sept 7th and October 5th and that we are by Bylaw entitled to Twenty Dollars for each practice. At one of these practices only 19 men answered Roll call but the average attendance for the six practices was 21. We leave it to the Council as to whether or not the allowance should be reduced, on account of our inability to comply with the letter of the Bylaw in that one instance. The intention, I believe is, to divide the money among those who attended the practices in proportion to their attendance and we should be pleased to receive a cheque payable to the order of A McDonald chief

Our own funds

(ON GRAND TRUNK RAILWAY, 70 MILES NORTH OF LONDON)

Mr Lammont - Chairman Fire Com. Regina

Dear Sir

Our Mr. Nelson has all right & glad to hear from him you were all so well pleased with steamer - you c^d not be otherwise it is such a perfect machine in all particulars I will do you credit - as well as the makers - He says you wished to know prices of expanders for attaching hose couplings on - these are very elaborate articles to make all in segments - steel center pin screwed & suit cost \$20. - the brass couplings per pair cost \$4. the copper rings to insert with each coupling cost \$4.50 a dozen - the hose spanners same as sent you cost \$7.50 a dozen but can give you cheaper ones at \$6. a dozen old style - every fireman should always carry with him one of these new style hose spanners to couple hose with, shall be pleased to rec. your order for any of the above goods

Very Resp^{ly} Yrs

John D. Ronald
