Subject: City of Regina - New Indoor Aquatics Facility project update
Date: Friday, June 24, 2022 5:13:53 PM

Good afternoon,

The project team for the new indoor aquatics facility would like to share a project update with you. As an interested party, we wanted to advise that the feasibility study will be considered by Executive Committee of City Council at a meeting on Wednesday, July 6th.

At that same meeting, Council will be receiving information about other major recreation infrastructure projects. Next steps for the project will include collaborative discussions related to location, costs, and sequencing of these projects.

We encourage you to review the feasibility study when it goes public later today. As the study is a large document, please [click here](#) for the Executive Committee Meeting Package for July 6th to download a copy of the administrative report and feasibility study. You are welcome to appear as a delegation to speak to the needs for this facility. If you are unable to attend in person, a written submission can be made. The deadline to make a request to be a delegation is 1pm on Thursday, June 30th. Information on how to appear as a delegation can be found in the "Present to a Committee or Council" at the following link: [City of Regina | City Council & Committee Meetings](#)

If you have any comments or questions in advance of the Executive Committee meeting, please don't hesitate to reach out to us.

Warm regards,

Laurie Shalley, Director, Parks, Recreation & Cultural Services
Shauna Bzdel, Director, Land, Real Estate & Facilities
